

Measuring Length in Millimetres

Measure the length of each line and give your answer in millimetres.

The image contains ten lines for measurement, each with a dashed box for the answer:

- Top-left: A short horizontal line above a dashed box.
- Top-middle: A vertical line to the left of a dashed box.
- Top-right: A diagonal line sloping upwards to the right, to the left of a dashed box.
- Middle-left: A diagonal line sloping downwards to the right, to the right of a dashed box.
- Middle-right: A long horizontal line above a dashed box.
- Bottom-left: A long diagonal line sloping downwards to the right, to the right of a dashed box.
- Bottom-middle: A short horizontal line above a dashed box.
- Bottom-right: A vertical line to the left of a dashed box.
