

Multiplication as Repeated Addition

Answers

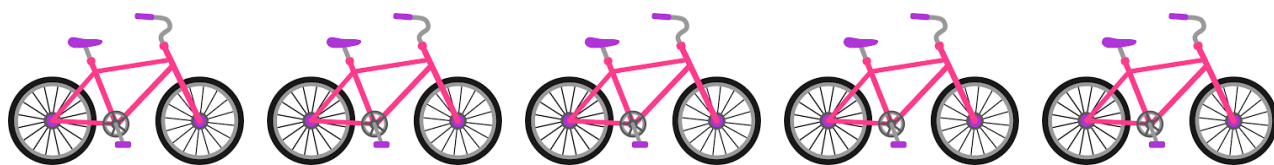

e.g. Number of legs

$$2 + 2 + 2 + 2 + 2 + 2 = 12$$

$$6 \times 2 = 12$$

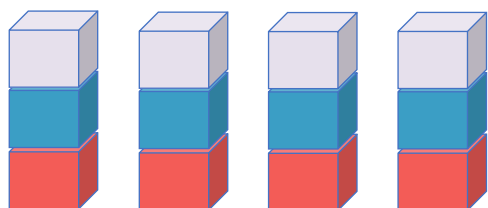

a) Number of wheels

Repeated addition: $2 + 2 + 2 + 2 + 2 = 10$

Multiplication: $5 \times 2 = 10$

b) Number of cubes

Repeated addition: $3 + 3 + 3 + 3 = 12$

Multiplication: $4 \times 3 = 12$

c) Number of legs

Repeated addition: $4 + 4 + 4 + 4 + 4 + 4 = 24$

Multiplication: $6 \times 4 = 24$

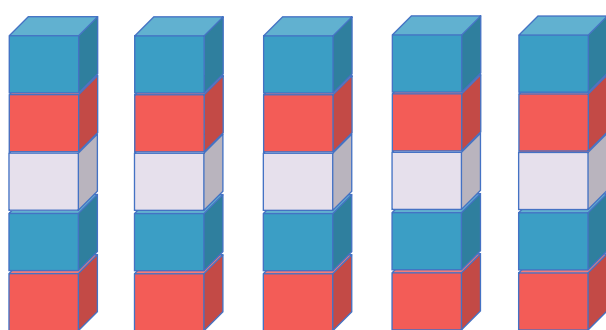

d) Number of eggs

Repeated addition: $6 + 6 + 6 + 6 + 6 + 6 + 6 = 42$

Multiplication: $7 \times 6 = 42$

e) Number of cubes

Repeated addition: $5 + 5 + 5 + 5 + 5 = 25$

Multiplication: $5 \times 5 = 25$
